

A main route which connects residents from Datchet and Horton and Wraysbury to Windsor will be closed for two weeks.

Kind Edward VII Avenue will be closed for essential bridge repairs from Monday, July 23 until Friday, August 3.

A diversion will run via Windsor town centre, the A308 Albert Road and Datchet Road.

Parts of Victoria Bridge have been found to have deteriorated due to water seeping into the concrete and the damage was identified during a routine inspection by the council.

During the two-week closure the surface of the bridge will be removed to allow the damage to be repaired.

The structure will then be covered with a special waterproof coating to protect it from further damage in the future before a new road surface is laid on the bridge and adjoining road.
